What we do in Nursery...

Here at Beechwood Childcare, we endeavour to make our environment as homely as possible, as we know the importance of your child feeling comfortable in their setting, and home is where they usually feel most settled.

We use the Early Years Foundation Stage to help monitor your child's development whilst they are with us, and aim for them to become **'School Ready'** by the time that they leave. We do daily activities with the children which are influenced by their interests and areas of learning that need some support, and allow them the freedom of **'child initiated play'** choosing what they would like, and who they would like to play with.

All nursery staff are committed to offering high-quality provision for children, taking into account views of parents and children. Experienced and qualified staff endeavour to know all children and have a secure understanding of how they learn. Children's journey is documented for parents to access and contribute to.

Children with English as an additional language are supported
Dietary requirements are catered for.

Parental Testimony...

The care, support and learning Beechwood provide is second to none. The girls are in an environment where they thrive and feel at home with their friends around them. The nursery are adaptable and supportive of home routines and the people that work there are like family to my children'.

'As parents of two little girls who are attending nursery since they were only 10 months old we feel extremely positive about our children's learning and development within Meriden Beechwood. Staff always recognise our children's achievements and identify areas in which they can benefit from more focus and encouragement. We feel informed and involved every step of the way'.

'We have a brilliant relationship with the staff. All staff without exception are friendly, approachable and helpful. I think it helps that our girls love them so much and genuinely enjoy going'.

The fact that each child has a key person means that you feel one person has a good understanding of your child and I really appreciate the phone calls I've had when questions have been needed to be asked about our girls or to inform me if they are unwell'.

As an organisation and as individuals, they all really do go 'over and above' anything I could ever expect from a nursery. Our children thrive in your care and simply treat nursery as their second home. Thank you.
