## Windy Arbor

## What we do in Nursery...

Here at Beechwood Childcare, we endeavour to make our environment as homely as possible, as we know the importance of your child feeling comfortable in their setting, and home is where they usually feel most settled.

We use the Early Years Foundation Stage to help monitor your child's development whilst they are with us, and aim for them to become **'School Ready'** by the time they leave.

We do daily activities with the children which are influenced by their interests and areas of learning that need some support, and allow them the freedom of **'child initiated play'** choosing what they would like, and who they would like to play with. We believe that play based learning is one of the most important things with children of this age, and use different methods to encourage this.

We try to interact with our local community as much as possible, with us taking regular trips to the local library, and parks.

## What we do in our Clubs ...

We run a very popular Before and After School Club, which caters for the children who attend Windy Arbor School.

We work very closely with the school and find this to have a positive impact on the children as we are able to maintain a level of consistency between the settings.

During these sessions, children are allowed to relax and have a break from the structure of school. We do encourage daily activities, but allow the children to pick the things that we do, working as a team to decide what we will do the following week.

We run a holiday club in all of the holidays, except for a period over Christmas.

All children from 0-11 years of age are welcome here.

During these we usually do themed weeks, with lots of fun activities included, and often *(if ratios allow)*, we take trips out of the setting, including visits to the local parks and the cinema.
